Using method :

- Use the product after a backwash or an emptying, so that the traces to be cleaned may be about 5cm above the water.
- Use a rag, a brush or a sponge, according to the surface to be cleaned, and a basin filled with water.
- Do not wet the area to be cleaned and put a small amount of **REVA-NET liquid** poured on the sponge, by rubbing the dirty surface.
- Leave to work for 3 minutes.
- Rinse with the water contained in the basin to avoid dirtying pool water.
- Repeat the operation on very dirty areas (angles or inside of the skimmers).

Using precautions : Use goggles, gloves and protective clothes.

Do not put product into pool water.

Important :

A regular cleaning will prevent an accumulation which would be too difficult to take off.

Safety :

REVA-NET liquid is corrosive: it may cause serious burns. Moreover, it is flammable.
