

MAREVA PREMIUM ALGAECIDE - TOP 3 **Algaecide – Flocculent – Anti Scale**

Properties :

- **TOP 3** is the base product of the **TOP 3/REVA KLOR** treatment.
- It flocculates the organic materials, brought by bathers or bad weather, which are then stopped onto the filter.
- It prevents scale deposits and rust stains.
- It limits pH changes and most of all, **it prevents algae growth**.
- **TOP 3**, thanks to its triple actions, allows to use chlorine only as a bactericide, then at a low concentration from 0,6 to 1,0 mg/l only, which eliminates the problems caused by chlorine.
- **TOP 3**'s formula is patented.

Using method:

- ◆ ***Routine treatment*** : Each week, at fixed day (on Saturdays for example), pour in front of the outlets (with filtration on) 0,10L per 10 m³ of pool water.
- ◆ ***Anti-algae curative action*** : 0,5L per 10 m³ of pool water preferably after a shock treatment with **REVATOP** (1L per 10 m³ of pool water). Warning: leave 1 to 2 days between the treatments.

Safety:

TOP 3 is irritating to eyes. Moreover, it is hazardous for aquatic organisms.

- ◆ If splashed in the eyes, wash immediately with plenty of water. Seek medical advice.
- ◆ Avoid contact with skin. Wash hands carefully after handling.
- ◆ Keep out of reach of children.
- ◆ In order to avoid any accidental swallowing, do not eat, smoke or drink during use.
- ◆ If swallowed, seek medical advice immediately and show the container or label.
- ◆ Do not mix with other chemicals.
- ◆ Do not empty residuals into drain.
- ◆ Rinse empty packaging in the pool before disposal.

Storage :

- ◆ Store in a cool dry place.
- ◆ Close container well after use.

Composition : This preparation contains algaecides and other active materials.

Shelf life : 3 years
